## PROJECTS

### OTT Platform (UI/UX Design)

- Designed a mobile-responsive OTT platform with a user-focused interface using Figma.

### 818 Digital AI Chatbot (UI/UX Prototyping)

- Implemented wireframes and interactive prototypes for an AI-based chatbot in both web and mobile formats.

### Neighborhood App (Figma)

- Built mobile UI&UX for location-based social networking.

### Online Print Ordering App (Figma)

- Created a mobile UI for print ordering platform for college students.

### Quiz Application

- Built an interactive quiz platform using HTML, CSS, and JavaScript.

### Job Portal Website

- Designed and built a fully responsive job board using the Bootstrap framework.

### Tech Mahindra Website

- Recreated enterprise website using WordPress themes and page builders.
- Customized layouts and components to match original site branding.

### Healthcare Brand Guidelines

- Created comprehensive branding assets including identity, typography, and visuals.

### Stationery Design Suite

- Produced design assets including Logos, Flyers, Posters, ID Cards, Coupons, Letterheads, and Web Templates.

### Skin Disease Detection (ML Project)

- Built a deep learning model in Python to detect 3 skin diseases and 1 skin cancer using image processing and neural networks.
